

REQUIRED LIST OF QUESTIONS FOR CUSTOMIZING VRG

Please supply answers in detail for RSA to work up and produce a quote for your applications

1. Photo of site
2. Width of opening
3. Height of opening
4. Gate material
5. Full height or segmented gate – one piece or multi-segment
6. Driveway slope
7. Driveway material: concrete, permeable pavers, asphalt
8. Typical axle loads or above average axle loads
9. RSA – VRG columns – integrated into existing (fences, columns, walls, etc.)
10. RSA – VRG columns – to create new identity
11. Distance from home or building
12. Distance to gate power source
13. Location of utilities in driveway – depth
14. Other restrictions in depth of excavation
15. Installation sequence – new or existing driveway
16. Construction equipment staging
17. Site drainage systems
18. Gate appearance – new
19. Gate appearance - existing to be replicated/reused – loaner gate available
20. Controller style – push button, mag card, key fob
21. Gate speed (up/down)
22. Desired system start-up date
23. CAD, REVIT, Rhino, Vectorworks (other file formats available)
24. Extensive design and engineering support
