

## “Sales Position for novel Floodwall”

**RSA Protective Technologies, LLC is a invention, engineering and fabrication firm focusing on infrastructure solutions.**

---

Our new Surface Mounted Fixed Floodwall System has been designed to provide up to 10' of flood protection using only 1' of ground excavation. Please review our video on the analysis, design and site fabrication of the system. RSA has civil, structural, geotechnical, mechanical, electrical and controls engineers on staff as well as working directly with the largest construction firm in Houston to perform turn-key operations. RSA will also license the technology. <https://youtu.be/e50UGy9JVBE>

Your task is to sell this permanent flood control system to all facilities who utilize underground piping close to the surface. For example waste water and clean water treatment facilities, refineries

and other industrial plants. Weekly stipend and sales commissions negotiable. 10 years of successful infrastructure sales required. Can be part time if you already have the contacts. Please contact Bill Belinski, COO of RSA at [wbelinski@rsaprotect.com](mailto:wbelinski@rsaprotect.com). [www.rsaprotect.com](http://www.rsaprotect.com)
